PUBLIC NOTICE

Notice # 15320-01
November 25, 2013

This notice is to inform the public that the S. C. Department of Health and Environmental Control (Agency) is taking public comments on a Corrective Action Plan (CAP). This CAP addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released from the underground storage tank system at this facility.

FACILITY: Don's Auto Service, 2799 Millwood Ave., Columbia, SC 29205

APPLICANT: Petra-Tech Environmental, LLC, 2435 East North St., Ste. 1108-202, Greenville, SC 29615 on behalf of Don's Dream, PO Box 11312, Columbia, SC 29211

SUMMARY OF CAP: Petroleum and petroleum byproducts naturally break down over time through chemical, physical, and biological processes. These processes are called natural attenuation. Petra-Tech Environmental, LLC has submitted a CAP proposing the use of the following technologies in addition to natural attenuation to clean up the contamination.

- Air Sparging & Soil Vapor Extraction: Air is pumped underground to evaporate petroleum products. The chemicals are removed using a vacuum system.
- Chemical Oxidation: Oxygen-rich chemicals are injected underground to change the petroleum product(s) into harmless compounds (water and carbon dioxide).

PUBLIC COMMENT PERIOD DEADLINE: The **deadline** for submitting written comments is **5 PM December 31, 2013**. Any interested person(s) may submit written comments concerning the cleanup to the Project Manager listed below. Please bring this notice to the attention of persons whom you know will be interested in this matter. Where there is a significant degree of public interest, the Agency will hold a public hearing.

Susan B. Fulmer, P.G.
SCDHEC - UST Management Division
2600 Bull Street

CONTACT INFORMATION: For additional information, please call the Project Manager listed above. To view a copy of the CAP, contact the Freedom of Information Office at 803-898-3882.

Section 280.67 of the S.C. Underground Storage Tank Control Regulations (R.61-92) requires that any CAP prepared to meet the requirements of 280.66 be placed on notice for public comment.
